### How to get around?

**Recommendation:** take a bus service – we recommend you buying a bus pass (f.e. Peru Hop), high flexibilty and you can explore the country on your own pace

#### **Alternatives:**

- flights with in the country (main airports in Peru: Lima, Arequipa, Cusco, Iquitos)
- rental car (only recommended if you speak spanish) Please note: rental cars are an option in peru but be aware that Peruvians are crazy car divers and their behavior often lead to fatal accidents

## Good to know!

- Buy Machu Picchu Tickets in advance if you want to do the whole Inca Trail you should apply for it at least 6-8 month in advance
- Altitude sickness: some of the most popular destinations like Cusco or Colca Canyon are located on an elevation over 3000 meters - high enough to suffer from altitude sickness
- Coca leaves are common in Peru and can help avoiding altitude sickness but be aware to get rid of it before leaving the country - in other countries it falls under the drug law and might be illegal to import !!be careful!!
- Never drink tap water in Peru (we also recommend you avoiding ice cubes in our drinks)
- Get a local sim card while exploring Peru recommendations Claro network provider
- Remember that Machu Picchu can only be visited **ONE WAY** so take a picture at the spot you are standing because you will not get the chance to return
